CITY MANAGER'S REPORT JULY 12, 2021 CITY COUNCIL REGULAR MEETING

ITEM: **AUTHORIZE NOTICE OF INTENT TO ADOPT THE
GROUNDWATER SUSTAINABILITY PLAN FOR THE
TRACY SUBBASIN**

RECOMMENDATION: **Adopt a Resolution Authorizing a Notice of Intent to
Adopt the Groundwater Sustainability Plan for the
Tracy Subbasin**

SUMMARY:

On August 29, 2014, the California Legislature passed the comprehensive groundwater legislation Sustainable Groundwater Management Act (SGMA). SGMA provides a framework for sustainable groundwater management in California, and can be found in Senate Bills 1168 and 1319 and Assembly Bill 1739.

The City of Lathrop is one of six Groundwater Sustainability Agencies (GSAs) that form the Tracy Subbasin. Under SGMA, the GSAs must complete a Groundwater Sustainability Plan (GSP) and submit such plan to the Department of Water Resources (DWR) by January 31, 2022. Under a Memorandum of Agreement (MOA) executed on September 24, 2019, the City of Lathrop and the other five local agencies have been collaborating to develop a single GSP for the Tracy Subbasin.

The final GSP for the Tracy Subbasin will be presented to Council for adoption consideration in October or November of 2021. At least 90-days prior to the adoption hearing, the GSAs in the Tracy Subbasin are required by SGMA to send a Notice of Intent to adopt the GSP (Notice of Intent) to the cities and counties within the GSP area.

Staff recommends that Council, as the governing body of the City of Lathrop Groundwater Sustainability Agency (GSA), adopt the attached Resolution authorizing release of Notice of Intent to Adopt the Groundwater Sustainability Plan for the Tracy Subbasin.

BACKGROUND:

On August 29, 2014, the California Legislature passed comprehensive groundwater legislation contained in Senate Bills 1168 and 1319 and Assembly Bill 1739, which are collectively referred to as the Sustainable Groundwater Management Act (SGMA). SGMA provides a framework for sustainable groundwater management in California.

SGMA requires government and water agencies in groundwater basins designated as medium or high priority by the California Department of Water Resources (DWR) to meet certain requirements:

JULY 12, 2021 CITY COUNCIL REGULAR MEETING**NOTICE OF INTENT TO ADOPT THE GROUNDWATER SUSTAINABILITY PLAN FOR THE TRACY SUBBASIN**

- Form new Groundwater Sustainability Agencies (GSA) by June 30, 2017.
- Complete and submit a Groundwater Sustainability Plan (GSP) to DWR by January 31, 2020 for critically over drafted basins and by January 31, 2022 for non-critically over drafted basins.
- Update the GSP every five years.
- Achieve basin sustainability within 20 years of submitting the GSP.

The City of Lathrop overlies the Tracy Subbasin, which is designated by the State as a medium-priority, non-critically over drafted basin. Pursuant to the requirements of SGMA, the City of Lathrop originally formed as a GSA on October 3, 2016, for the portion of the City located east of the San Joaquin River and within the Eastern San Joaquin Subbasin. In 2018, the DWR approved a Basin Boundary Modification such that the City of Lathrop was located entirely within the Tracy Subbasin. Five other GSAs located in the Tracy Subbasin include the Banta-Carbona Irrigation District GSA, Byron-Bethany Irrigation District GSA, City of Tracy GSA, San Joaquin County GSA, and Stewart Tract GSA (herein collectively referred to as the "Tracy Subbasin GSAs").

On September 24, 2019, the Tracy Subbasin GSAs executed a Memorandum of Agreement to coordinate groundwater management and develop a single GSP for the Tracy Subbasin, which is due to the State no later than January 31, 2022. Local agencies have collaboratively managed groundwater resources in the Tracy Subbasin for decades. As a result of these efforts, groundwater resources in the basin are already sustainable. The GSP will provide a roadmap to continue to the sustainability of the region's groundwater supplies.

The GSP is being collaboratively developed with input from the six GSAs, as well as input from members of the public provided through monthly meetings, public workshops, and public comment periods. The Draft GSP is anticipated to be released for public comment and review in August 2021.

SGMA requires GSAs to adopt the final GSP at a public hearing. At least 90-days prior to the hearing, the GSA must send a notice to cities and counties within the plan area notifying them of the proposed GSP. This requirement is identified in Section 10728.4 of the California Water Code, which states that:

A groundwater sustainability agency may adopt or amend a groundwater sustainability plan after a public hearing, held at least 90 days after providing notice to a city or county within the area of the proposed plan or amendment. The groundwater sustainability agency shall review and consider comments from any city or county that receives notice pursuant to this section and shall consult with a city or county that requests consultation within 30 days of receipt of the notice. Nothing in this section is intended to preclude an agency and a city or county from otherwise consulting or commenting regarding the adoption or amendment of a plan.

CITY MANAGER'S REPORT
JULY 12, 2021 CITY COUNCIL REGULAR MEETING
NOTICE OF INTENT TO ADOPT THE GROUNDWATER SUSTAINABILITY PLAN
FOR THE TRACY SUBBASIN

PAGE 3

The final GSP for the Tracy Subbasin will be presented to Council for consideration to adopt at a regular public hearing held in October or November of 2021. At least 90-days prior to the adoption hearing, the GSAs in the basin will send a Notice of Intent to Adopt the GSP (Notice of Intent) to cities and counties within the GSP area. A copy of this Notice of Intent is provided as Attachment B.

REASON FOR RECOMMENDATION:

Pursuant to SGMA requirements, staff recommends Council to adopt a resolution authorizing a Notice of Intent to Adopt the Groundwater Sustainability Plan for the Tracy Subbasin.

FISCAL IMPACT:

There is no fiscal impact at this time for releasing the Notice of Intent to Adopt the Tracy Subbasin Groundwater Sustainability Plan.
